Innovative problem-solver passionate about developing applications with a focus on mobile-first design and web development. Strong arts and professional design background with a Certificate in Computer Software Engineering from Rutgers University–New Brunswick. Proven problem solver with strengths in creativity, teamwork, and building projects from ideation to execution. Extensive experience in visual design and delivering engaging user experiences.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5, React
Applications: GitHub, MongoDB, Adobe Photoshop, Robo 3T, Insomnia, Heroku
Tools: Express, Node, NPM, MySQL, NoSQL, Handlebars, jQuery, Bootstrap, Materlizecss, Material-UI, API

PROJECTS

Pokemon-TCG-App | Front End Developer | https://bit.ly/3i1eSxo | https://bit.ly/3eXIl9n
- Integrates Pokemon TCG API to render Pokemon cards to the user.
- Utilizes Handlebars.js to compile semantic templates for faster execution.
- Dynamically rendered components and animation using Materializecss for a smoother user experience.

MVC-Tech-Blog | Full Stack Developer | https://bit.ly/3zAd98a | https://bit.ly/2UI6Pgg
- Follows the MVC paradigm design pattern in its architectural structure.
- Integrates express-session npm package for authentication.
- Uses Sequelize as the ORM for solid database synchronization.

Team-Profile-Generator | Full Stack Developer | https://bit.ly/3rxtKGY
- Utilizes Node.js for a command-line application that takes in information.
- Dynamically generates an HTML webpage with the information given.
- Made use of unit testing to make the code maintainable.

EXPERIENCE

Photographer - Igarashi Takahiro   2019 - Present
Digital Technician / Assistant Retoucher; New York, NY
Provide a smooth workflow for the client on set by managing image files and following proper file naming conventions. Transfer Digital Images, Reformat, Adjusting Color, Contrast and Size.
